

Future Ops 2019

"Aurora Document Imaging & Tracking" -CSPI

By the end of this session, hopefully we will have answered a few main questions:

- What is Aurora Document?
 - How will Aurora Doc integrate with your environment and current processes?
 - Once documents are scanned, how will you research and automate reporting?
-
- ❖ Intuitive Navigation
 - Utilize a multitude of Search Features
 - Access Electronic Filing Cabinets
 - ❖ Image Viewer
 - Print, Export, Invert & Add Annotations
 - Build archives for auditors
 - Set reoccurring document tracking
 - Customize and automate notices
 - ❖ Acquire Documents
 - Scan, Import, Index or Delayed Indexing
 - Automatic import and indexing of barcoded documents
 - ❖ Powerful Reporting Tools
 - Automate reports through report distribution
 - Utilize the report builder to generate custom reports
 - ❖ Workflow
 - ❖ Purge Data
 - ❖ Vendor Module
 - ❖ Human Resources Module

Stop by the CSPI Booth
to chat with Keith
Paden, Regional Sales
Manager.
